SIEMENS

Electrical Actuators

for small valves VVP47..., VXP47..., VMP47...

SSP31... SSP81... SSP61...

SSP31 operating voltage AC 230 V	3-position control signal
SSP81 operating voltage AC 24 V	3-position control signal
• SSP61 operating voltage AC / DC 24 V	DC 010 V control signal
Nominal force 160 N	-
Automatic identification of valve stroke	
Direct mounting with coupling nut, no tool	s required
Basic types complete with plug-in connect	ing cable, length 1.5 m
Optional cable types	
• Cable length 2.5 m and 4.5 m	

- Halogen-free cables
- Manual override and position indication
- Parallel connection of multiple actuators possible

Use

For operation of Siemens valves of the V...P47... series for water-side control of hot and cooling water in heating, ventilation and air conditioning systems. In conjunction with the AL100 adapter, the actuators are also suitable for use with the 2W..., 3W... and 4W... valves

Type summary

Type reference	Operating voltage	Run time at 50 Hz	Control signal	Connecting cable
SSP31	AC 230 V	150 s		
SSP81 ¹⁾	AC 24 V	150 \$	3-position	1.5 m
SSP81.04	AC 24 V	43 s	1	1.5 m
SSP61 ¹⁾	AC / DC 24 V	34 s	DC 010 V	

¹⁾ are UL and cUL approved

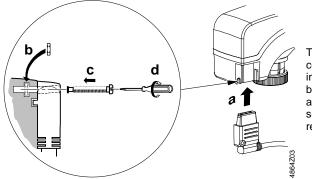

Accessories

Type reference	Description	Operating voltage	Control signal	
ASY3L25	Connecting cable 2.5 m	AC 020 V	3-position	
ASY3L45	Connecting cable 4.5 m	AC 230 V		
ASY8L25	Connecting cable 2.5 m			
ASY8L45	Connecting cable 4.5 m	AC 24 V	5 90311011	
ASY8L45HF	Connecting cable 4.5 m, halogen-free, VDE 0207-24			
ASY6L25	Connecting cable 2.5 m			
ASY6L45	Connecting cable 4.5 m	AC / DC 24 V	DC 010 V	
ASY6L45HF	Connecting cable 4.5 m, halogen-free, VDE 0207-24			

Retaining screw ASY98

Type ASY98 to secure the cable connector. Included in ASY99 and ASY100.

The cable connector snaps into position, but can be additionally secured with the retaining screw.

Terminal block connectors ASY99 ASY100

For special cable lengths of the AC / DC 24 V actuators.

ASY99 for 3-position actuators

ASY100 for DC 0...10 V modulating actuators

The terminal block connectors are supplied complete with Mounting Instructions (74 319 0385 0).

Adapter AL100

AL100 for retrofitting the 2W..., 3W... and 4W... valves. The adapter is supplied complete with Mounting Instructions (74 319 0302 0).

Ordering

Example:	Typ reference	Stock no.	Description	Quantity
	SSP81	SSP81	Electromotoric actuator	2
	ASY99	ASY99	Terminal block	2

Delivery Actuators, valves and accessories are packed separately. Items are supplied individually packed.

Rev.-Nr. Overview tables see page 9.

Equipment combinations

	Type reference	Valve type	k_{vs} [m ³ /h]	PN class	Data sheet
Direct mounting	VVP47	2-port valves			
-	VXP47	3-port valves	0.254.0		N4847
	VMP47	3-port valves with T-bypass	0.252.5	DNI16	
With AL100 adapter	2WK	2-port valves	0.62.5	PN16	
for retrofitting	3W	3-port valves	0.64.0	-	N4846
	4W	3-port valves with T-bypass	0.62.5		
	k _{vs} = nominal flow at a different	rate of cold water (530 °C) thro ial pressure of 100 kPa (1 bar)	ough the fully ope	n valve (H ₁₀₀)

Notes

Engineering	The actuators must be electrically connected in accordance with local regulations (refer to «Connection diagrams»), page 8.
\triangle Caution	Regulations and requirements to ensure the safety of people and property must be observed at all times!
	The permissible temperatures (refer to «Technical data», page 6) must be observed. The connecting cable of the actuator may come into contact with the hot valve body, provided the temperature of the valve body does not exceed 80 °C.
Mounting	The Mounting Instructions 74 319 0497 0 are enclosed in the product packaging.
Valves VP47	Assembly is made with the coupling nut; no tools or adjustments are required. The actuator without operating voltage must be fitted in position 0 (also refer to «Manual override», page 5):
	Position the actuator and tighten the coupling nut manually
▲ Caution	Do not use any tools such as wrenchesAvoid lateral pressure or (cable) tension on the mounted actuator!
	In the case of actuators without connecting cable (SSP/00), the separately ordered
	terminal block connector and connecting cable must be fitted.
Valves 2W / 3W / 4W	Mounting adapter AL100 is required
Orientation	
Installation	4.55 mm 4891Z33 Crimp ferrule on stripped wire of connecting cable.
Commissioning	 When commissioning the system, check wiring and the functions of the actuator. Actuator stem extends (from position 0 to 1): Valve opens Actuator stem retracts (from position 1 to 0): Valve closes
Self-calibration	During commissioning and whenever the operating voltage is switched on, the SSP61 runs a self-calibration routine. (Valve stroke $0 \rightarrow Max$. stroke \rightarrow Setpoint). Never intervene manually in this process.

4/10

· · · · ·

•

<u>Note:</u> Correct calibration is only possible with valve.

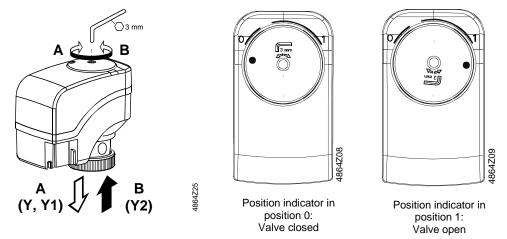

The second or third attempt at calibration occurs automatically after an 8-minute delay.

After three failed calibration attempts the actuator stem remains in the extended position and the V...P47... valves are opened.

OperationA 3 mm hexagonal socket wrench can be used to move the actuator to any position
between 0 and 1. However, if a control signal from the controller is present, then this
takes priority in determining the position.

Note To retain the manually set position, unplug the connecting cable or switch off the operating voltage and the control signal.

Manual override

Maintenance

The actuators are maintenance-free.

When carrying out service work on the plant, following must be noted:

- \triangle
- Turn power off (e.g. remove the plug)If necessary, disconnect electrical connections from the terminals
- The actuator must be commissioned only with a correctly mounted valve in place!

SSP... actuators cannot be repaired; the complete unit must be replaced.

Repairs

Disposal

The device is considered an electronics device for disposal in terms of European Directive 2012/19/EU and may not be disposed of as domestic garbage.

- Dispose of the device through channels provided for this purpose.
- Comply with all local and currently applicable laws and regulations.

Warranty

The technical data given for these applications is valid only when the actuators are used with the Siemens valves listed under «Equipment combinations», page 3.

The use of the SSP... actuators in conjunction with third-party valves invalidates any warranty offered by Siemens Switzerland Ltd / HVAC Products.
